الدولة	المحاور الأساسية
Algeria	In October 2024, Algeria made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime. At its February 2026 Plenary, the FATF made the initial determination that Algeria has substantially completed its action plan and warrants an on-site assessment to verify that the implementation of AML/CFT reforms has begun and is being sustained, and that the necessary political commitment remains in place to sustain implementation in the future. Algeria has made the following reforms: (1) improving risk-based supervision, especially for higher risk sectors, including through the adoption of new procedures, risk assessments, supervision manuals and guidelines, as well as undertaking inspections and applying effective, proportionate and dissuasive sanctions; (2) developing an effective framework for basic and beneficial ownership information; (3) enhancing its regime for suspicious transaction reports; (4) establishing an effective legal and institutional framework for targeted financial sanctions for terrorism financing; and (5) implementing a risk-based approach to oversight of non-profit organisations, without disrupting or discouraging legitimate activity.
Angola	In October 2024, Angola made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime. Angola should continue to work with the FATF to implement its FATF action plan by: (1) enhancing its understanding of ML/TF risks; (2) improving risk-based supervision of non-financial banking entities and DNFBPs; (3) ensuring competent authorities have adequate, accurate and timely access to beneficial ownership information and that breaches to obligations are adequately addressed; (4) demonstrating an increase in ML investigations and prosecutions; (5) demonstrating the ability to identify, investigate and prosecute TF; and (6) demonstrating an effective process to implement targeted financial sanctions without delay.

<p>Virgin Islands (UK)</p>	<p>Since June 2025, when the Virgin Islands (UK) made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, the Virgin Islands (UK) has taken steps to improve its AML/CFT regime by strengthening fit and proper checks, ensuring basic information on legal persons is available to the general public, and raising awareness of how legal persons can be misused for money laundering and terrorist financing. The Virgin Islands (UK) should continue working to implement its FATF action plan by: (1) enhancing risk-based supervision of TCSPs, Investment Businesses and VASPs; (2) ensuring that accurate and up-to-date beneficial ownership information is available to competent authorities and breaches to obligations are sanctioned; (3) improving the quality of SARs and ensuring that reporting is in line with risk; (4) systematically pursuing ML investigations and prosecutions in line with risk; (5) increasing the seizure and confiscation of criminal proceeds; and (6) operationalising the new asset management framework.</p>
<p>Yemen</p>	<p>(Statement from February 2023)</p> <p>Since February 2010, when Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Yemen has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Yemen had substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing procedures to identify and freeze terrorist assets; (3) improving its customer due diligence and suspicious transaction reporting requirements; (4) issuing guidance; (5) developing the monitoring and supervisory capacity of the financial sector supervisory authorities and the financial intelligence unit; and (6) establishing a fully operational and effectively functioning financial intelligence unit. While the FATF determined that Yemen has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and conduct an on-site visit at the earliest possible date.</p>
