The FATF again encourages South Sudan to continue to implement its action plan to address the above-mentioned strategic deficiencies as soon as possible and demonstrate strong political and institutional commitment to strengthen the effectiveness of its AML/CFT regime, particularly in supporting the lead AML/CFT agency in coordinating national AML/CFT efforts.</p>
<p>Syria</p>	<p>(Statement from February 2023)</p> <p>Since February 2010, when Syria made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Syria has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and will conduct an on-site visit at the earliest possible date.</p>
